

Environmental Policy

Cambodia Airports is committed to protecting the local and global environment of the Earth, starting with the perimeter of its activities.

To minimize the environmental impact of its activities and processes, Cambodia Airports commits to:

Comply with the applicable environmental requirements, legal or not, to which it subscribes

Implement an Environmental Management System (EMS) following the requirements of ISO 14001:2015

Continually review and improve the Environmental Management System (EMS) and its implementation

Include environmental issues and challenges in all its business strategies and initiatives

Prevent pollution, reduce waste and optimize its utilization of resources

Reduce its carbon footprint in line with Vinci Airports commitments

Reinforce environmental protection concerns among its suppliers and subcontractors

Have employees dedicated to the development of sustainability and environment protection

Train and inspire all employees from Cambodia Airports and from its partners, to learn them how to adopt environmentally friendly behaviors in and out of their job

Cambodia Airports's EXCOM members are committed to ensuring that these commitments are firmly embedded in Cambodia Airports' culture. They want to influence all suppliers, tenants and subcontractors of the company so as to create a sustainable strategic environment.

Cambodia Airports as a whole is committed to the continual improvement of its own environmental performances, but also of the ones of its partners. That is why this policy is communicated and available to all parties linked to the firm's activities.
